SUMMARY

With 7 years of experience as a Front-end Developer, I specialize in creating responsive, user-friendly web applications. With a strong focus on Angular as my primary tool, I also possess experience using ReactJS to build dynamic, scalable user interfaces.

EXPERIENCE

Front-end Developer
Nov 2023 - Present

Eviden | Taguig City

- Contributed to the development, enhancement, and maintenance of the customer-facing website for an insurance company, supporting markets in Indonesia, Vietnam, and the Philippines.
- Ensured compatibility and responsiveness across devices, browsers, and screen sizes, optimizing user experience on mobile, tablet, and desktop.
- Upgraded the Angular version of key components within the company's public website, enhancing performance and maintainability.
- Assisted in implementing analytics on the public website, helping track user behavior and gather valuable insights.

Front-end Developer
Nov 2021 - Oct 2023

i-Cube Digital Solutions | Makati City

- Integral member of the development team creating a specialized web application for a mining company.
- Upgraded the map feature from ng-maps to Mapbox, improving user interaction.
- Developed and implemented a reports module displaying dynamic, interactive graphs using D3.js, enabling data-driven insights for users.
- Contributed to developing, and implementing new features to enhance application functionality and user experience.

EDUCATION

UI/UX Design
CIIT College of Arts and Tech.
2022

B.S. Information Technology
Lorma Colleges
2013-2017

Front-end Developer
Sep 2020 - Nov 2021

White Cloak Technologies | Pasig City

- Contributed to the development of real estate websites using Next.js, React.js, and GraphQL, ensuring seamless user experiences and performance.
- Provided production support, quickly troubleshooting and resolving issues for four different brands within the organization.
- Implemented enhancements and optimizations to improve site functionality, scalability, and user satisfaction.

Junior Web Developer
Sep 2017 - Jun 2020

FFUF Manila | Makati City

- Maintained and enhanced an existing web application enabling users to create and customize newsletter templates.
- Fixed email layout issues to ensure consistent rendering across different email clients and improved user experience.
- Contributed to the development of a web app that allows users to document fire protection measures by defining floor plans, linking important documents, and attaching images.
- Developed a web application that enables users to save and publish articles in multiple languages, with the content displayed on a mobile app.
